

# High Frequency induction heating equipment annealed stainless steel tube

United Induction Heating Machine Limited

We are experienced in Induction Heating, induction heating machine, Induction Heating equipment. They are widely used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering, induction melting and induction surface treatment applications  
<http://www.uihm.com>

UM-60AB-HF high frequency induction heating equipment for stainless steel pipe annealing (solution), annealed steel pipe weld can withstand the stress of bending, flattening, the weld will not crack, fast heating and high efficiency
