

# induction melting with vacuum furnace

United Induction Heating Machine Limited

We are experienced in Induction Heating, induction heating machine, Induction Heating equipment. They are widely used in induction heating service, induction heat treatment, induction brazing, induction hardening, induction welding, induction forging, induction quenching, induction soldering induction melting and induction surface treatment applications  
<http://www.uihm.com>

Induction melting is often used for vacuum melting. Some applications such as melting gold or titanium or platinum need a vacuum furnace to avoid oxidation, induction melting is a very good method for these work.

UIHM can provide induction heating machines for any vacuum furnace, and we can also provide custom-build vacuum furnace for your work.
